

Recipients of the Silver Medal

- 2010** **Michael McCarthy**, Environment Journalist and writer, for contributions to the public understanding of wildlife, the need for its conservation and issues relating to environmental policy and climate change.
- 2009** **Dr David Macdonald**, University of Oxford, for his wide-ranging contributions to zoology, including species monographs, encyclopaedias of mammals, and for immense contributions to conservation biology through the Wildlife Conservation Research Unit at Tubney, near Oxford.
- 2008** **Dr Rosie Trevelyan**, Director of the Tropical Biology Association, an organisation dedicated to working in partnership with African institutions to build expertise in biodiversity conservation and research through practical training, fundraising and by providing information and resources.
- 2007** **The Scottish Ornithologists Club**
for *The Birds of Scotland*, a two volume publication covering a total of 509 bird species. This publication is a remarkable achievement that sets a new benchmark for regional avifaunas.
- 2005** **Alistair Fothergill**
for significant contribution to the understanding and appreciation of zoology; in particular, for his direction of *Deep Blue*. Much of the film's footage was originally shot for the television series *Blue Planet*, the most comprehensive documentary of its type ever committed to film.
- 2004** **Field Marshall Sir John Chapple**
for long and distinguished service to the Zoological Society of London, and his contribution to wildlife conservation.
- 2003** *Category 1 - a member of staff of the rank of Curator (or the equivalent in non-menagerie departments) or above: or an Honorary Consultant, for long and distinguished service to the Society or for some outstanding achievement.*
Peter Olney
for his work to promote good practice and responsible management of wildlife in captivity, and his broader work for the zoo community.
- Category 2 - Awarded to a Fellow of the Society or any other person for contribution to the understanding and appreciation of zoology, including such activities as public education in natural history and wildlife conservation.*
Professor Aubrey Manning
for his original and informative television series that have helped a wider general public to appreciate the origins and functions of the British landscape.
- 1999** **Dr Michael Brambell**
for his major contribution to the work of ZSL.
- 1997** **Dr George B Rabb**
for his outstanding contribution to animal conservation at world level.
- 1993** **Mr Jonathan Kingdon**
for contribution by both art and science to the public understanding and appreciation of zoology.
- 1991** **Miss Jane Goodall**
for her pioneering contribution and continuing efforts to achieve understanding of the biology, behaviour and conservation of the great apes and primates.
